PRODUCT DESCRIPTION

H8 FUSION SPLICER

A new shrinking technology makes that the shrink time is greatly reduced, thus resulting in an extremely fast total cycle time. The splicer is designed to withstand harsh environmental conditions. Its lightweight, yet robust, compact and ergonomic design allows users to easily carry or move.

Types	Fusion Splicer
Model	H8
Alignment	Core alignment
Fiber Type	Single Fiber Single Mode
Application	FTTH FTTB FTTX Network
Dimension	133*140*137mm
Weight	2.1kg
Color	Green
Certification	RoHS
Starting time	≤9s
Typical splicing time	7s
Tensile test	1.96-2.25N

PRODUCT FEATURES

THREE DEFENSE

Imported high quality materials from abroad

APPLICATION FOR BACKBONE NETWORK

HUSHIN Communication Technology Group Co., Ltd. is one of the leading providers and manufacturers of fiber-optic products in China. Established in 2003, owning the production facility of 40,000 square meters, we have more than 450 staff and state-of-the-art equipment.
